Alex Rivera

Product Analyst. London, UK. alex.rivera@example.com

Experience

Product Analyst at PayPulse (B2B SaaS fintech, 2023 to present) supporting the Checkout and Merchant Retention squads.

Partnered with a PM and 5 engineers to redesign the 4-step merchant onboarding flow, lifting 7-day activation from 41% to 54% across 12,000 signups.

Designed and analysed 18 A/B tests on payment retry logic and dunning emails using Python (scipy) and SQL, recovering $420K in annualised ARR.

Built an automated merchant churn-risk dashboard in Looker used weekly by 40 account managers, reducing logo churn by 14% over two quarters.

Refactored 22 legacy SQL reporting scripts into modular dbt models on BigQuery, cutting daily pipeline runtime by 58% and reducing warehouse spend by 25%.

Led the migration of subscription billing analytics to Stripe webhook events, reconciling a 6% revenue reporting discrepancy with Finance.

Audited and standardised 85 frontend product events in Segment and Amplitude, raising tracking schema compliance from 64% to 97%.

Junior Data Analyst at RetailLoop (2021 to 2023), owning weekly executive KPI packs and cohort retention reporting.

Built a self-serve SQL query library and ran bi-weekly Looker office hours for 25 non-technical operations and marketing stakeholders.

Skills

SQL, dbt, BigQuery, Python (pandas, scipy), Looker, Tableau, Segment, Amplitude, A/B testing, cohort retention analysis.

Education

BSc Economics, University of Manchester, 2021.
